Patient Information

Client: Carlson, Jessica Patient Name: TJ's Tequila On Ice Reg. Name: TJ's Tequila On Ice PennHIP Num: 121877 Species: Canine Date of Birth: 15 Mar 2017 Sex: Male Date of Study: 04 Sep 2018 Date of Report: 06 Sep 2018	Tattoo Num: Patient ID: AKC SR99294401 Registration Num: SR99294401 Microchip Num: Breed: BRITTANY Age: 18 months Weight: 35.4 lbs/16.1 kgs Date Submitted: 05 Sep 2018
---	--

Findings

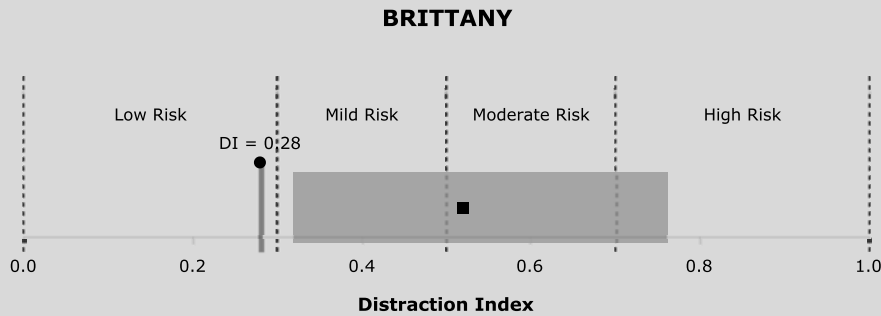

Distraction Index (DI): Right DI = 0.26, Left DI = 0.28.
Osteoarthritis (OA): **No radiographic evidence of OA for either hip.**
Cavitation/Other Findings: No cavitation present.

Interpretation

Distraction Index (DI): The laxity ranking is based on the hip with the greater laxity (larger DI). In this case the DI used is 0.28.

OA Risk Category: The DI is less than or equal to 0.30. This patient is at minimal risk for hip OA.

Distraction Index Chart:

BREED STATISTICS: This interpretation is based on a cross-section of 664 canine patients of the BRITTANY breed in the AIS PennHIP database. The gray strip represents the central 90% range of DIs (0.32 - 0.76) for the breed. The breed average DI is 0.52 (solid square). The patient DI is the solid circle (0.28).

SUMMARY: The degree of laxity (DI = 0.28) ranks the hip within the tightest 5% of DIs for the breed. This amount of hip laxity places the hip at a minimal risk to develop hip OA. **No radiographic evidence of OA for either hip.**
